THE TOWN

General Information

The Town of Schaghticoke was incorporated in 1791 and has a land area of 49.4 square miles. The Town is located approximately 20 miles northeast of Albany. The Town of Schaghticoke has been traditionally an agricultural community in its over 200 years of existence; but with rapid decrease in the use of agricultural lands has become a rural bedroom community for the Capital District area.

Water is supplied to a majority of the populated areas of the Town through the water districts as established by the Towns. Sanitary sewer service is provided through Town interceptors that feed into the Rensselaer County treatment plant and Saratoga County treatment plant. Gas and electric service is supplied by National Grid (Formerly Niagara Mohawk Power Corporation). Police protection is provided by the Rensselaer County Sheriff's Department and the New York State Police. The Town provides fire protection and rescue services through six voluntary fire districts and three voluntary rescue squads. The Town also offers assistance to senior citizens through various senior citizen groups. A voluntary youth commission provides guidance and direction through its summer program that tracks approximately 400 children.

Form of Town Government

The Town is governed by the provisions of the Town Law.

The chief executive officer of the Town is the Supervisor who is elected for a term of two years and is eligible to succeed herself. She is also a member of the Town Board. In addition to the Supervisor, there are four members of the Town Board who are elected for four-year terms. Each term is staggered so that every two years the Supervisor and two council members run. There is no limitation as to the number of terms which may be served by members of the Town Board. Both the Supervisor and council members are elected at large.

The Town appoints its Assessor who serves a six-year term. The Town appoints the Budget Director and the Town Attorney whose terms are fixed by Town Law. The Town Clerk and Town Receiver of Taxes are elected to four-year terms.

Financial Organization

The Town Supervisor is the chief fiscal officer of the Town. The Supervisor, with the approval of the Town Board, appoints the Budget Director to the Supervisor, who with the Supervisor, has responsibility for the Town's financial affairs including reviewing the financial conditions of the Town and plans for the Town's financial needs. The Supervisor is responsible for the custody of the Town's funds and disbursement of Town expenses. The Town Board is responsible for approving claims and expenses. The Assessor has responsibility for assessing real property in the Town for ad valorem taxes. Taxes, including Rensselaer County ad valorem taxes assessed in the Town, are collected by the Receiver of Taxes.

Budgetary Procedures

The Supervisor, with the assistance of the Budget Director, prepares a preliminary budget each year, pursuant to various laws of the State of New York, and holds a public hearing thereon. Subsequent to the public hearing revisions, if any, are made and the budget is then adopted by the Town Board no later than November 20th as its final budget for the coming fiscal year. The budget is not subject to referendum.

Investment Policy

Pursuant to the statutes of the State of New York, the Town is permitted to invest only in the following investments: (1) special time deposits or certificates of deposits in a bank or trust company located and authorized to do business in the State of New York; (2) obligations of the United States of America; (3) obligations guaranteed by agencies of the United States of America where the payment of principal and interest is guaranteed by the United States of America; (4) obligations of the State of New York; (5) with the approval of the New York State Comptroller, tax anticipation notes and revenue anticipation notes issued by any New York municipality or district corporation, other than the Town; (6) obligations of a New York public corporation which are made lawful investments by the Town pursuant to another provision of law; (7) certain certificates of participation issued on behalf of political subdivisions of the State of New York; and, (8) in the case of Town moneys held in certain reserve funds established pursuant to law, obligations issued by the Town. These statutes further require that all bank deposits, in excess of the amount insured under the Federal Deposit Insurance Act, be secured by either a pledge of eligible securities, an eligible surety bond or an eligible letter of credit, as those terms are defined in the law.

Consistent with the above statutory limitations, it is the Town's current policy to invest in: (1) certificates of deposit or time deposit accounts that are fully secured as required by statute, (2) obligations of the United States of America, (3) obligations guaranteed by agencies of the United States of America where the payment of principal and interest is guaranteed by the United States of America, (4) obligations of the State of New York, (5) Repurchase agreements are permitted to the extent that all repurchase agreements must be entered into subject to a Master Repurchase Agreement with collateral held by a third party bank, (6) obligations issued, or fully insured or guaranteed as to the payment of principal in interest, by the United States of America, or (7) obligations issued or fully insured or guaranteed by the State of New York, obligations issued by a municipal corporation, school district or district corporations of the State of New York.

State Aid

The Town receives financial assistance from the State. In its General Fund budget for the 2014 fiscal year, approximately 21.5% of the operating revenues of the Town is expected to be received from the State as State aid. If the State should experience difficulty in borrowing funds in anticipation of the receipt of State taxes in order to pay State aid to municipalities and school districts in the State, including the Town, in any year, the Town may be affected by a delay in the receipt of State aid until sufficient State taxes have been received by the State to make State aid payments. Additionally, if the State should not adopt its budget in a timely manner, municipalities and school districts in the State, including the Town, may be affected by a delay in the payment of State aid.

The State is not constitutionally obligated to maintain or continue State aid to the Town. No assurance can be given that present State aid levels will be maintained in the future. In view of the State's continuing budget problems, future State aid reductions are likely. State budgetary restrictions which eliminate or substantially reduce State aid could have a material adverse effect upon the Town requiring either a counterbalancing increase in revenues from other sources to the extent available, or a curtailment of expenditures.

Employees

The Town provides services through 13 full-time and 36 part-time positions with highway employees represented by the Teamsters collective bargaining unit. The bargaining unit's contract expired on December 31, 2013.

Pension Payments

Substantially all employees of the Town are members of the New York State and Local Employees' Retirement System ("ERS") the "Retirement System"). The Retirement System is a cost-sharing multiple public employer retirement system. The obligation of employers and employees to contribute and the benefit to employees are governed by the New York State Retirement System and Social Security Law (the "Retirement System Law"). The Retirement System offers a wide range of plans and benefits which are related to years of service and final average salary, vesting of retirement benefits, death and disability benefits and optional methods of benefit payments. All benefits generally vest after five years of credited service. The Retirement System Law generally provides that all participating employers in each retirement system are jointly and severally liable for any unfunded amounts. Such amounts are collected through annual billings to all participating employers. Generally, all employees, except certain part-time employees, participate in the Retirement Systems. The Retirement System is non-contributory with respect to members hired prior to July 27, 1976. All members hired on or after July 27, 1976 and until April 1, 2012, with less than ten years' service, must contribute 3% of gross annual salary toward the cost of retirement programs.

On December 10, 2009, then Governor Paterson signed into law pension reform legislation that will provide (according to a Division of the Budget analysis) more than \$35 billion in long-term savings to State taxpayers over the next thirty years. The legislation created a new Tier V pension level, the most significant reform of the State's pension system in more than a quarter-century at that time. Key components of Tier V include:

- Raising the minimum age at which most civilians can retire without penalty from 55 to 62 and imposing a penalty of up to 38% for any civilian who retires prior to age 62.
- Requiring employees to continue contributing 3% of their salaries toward pension costs so long as they accumulate additional pension credits.
- Increasing the minimum years of service required to draw a pension from 5 years to 10 years.
- Capping the amount of overtime that can be considered in the calculation of pension benefits for civilians at \$15,000 per year, and for police and firefighters at 15% of non-overtime wages.

On March 16, 2012, Governor Cuomo signed into law the new Tier VI pension program, effective for new ERS employees hired after April 1, 2012. The Tier VI legislation provides for increased employee contribution rates of between 3% and 6%, an increase in the retirement age from 62 years to 63 years, a readjustment of the pension multiplier, and a change in the time period for final average salary calculation from 3 years to 5 years. Tier VI employees will vest in the system after ten years of employment and will continue to make employee contributions throughout employment.

Stable Rate Pension Contribution Option: The 2013-14 State Enacted Budget includes a provision that would provide local governments and school districts, including the Town, with the option to "lock-in" long-term, stable rate pension contributions for a period of years determined by the State Comptroller and ERS and TRS. The stable rates would be 12% for ERS and 12.5% for TRS. The pension contribution rates under this program would reduce near-term payments for employers, but will require higher than normal contributions in later years. The Town is not participating in the Stable Rate Pension Contribution Option nor has the intent to do so in the foreseeable future.

The Town's actual and projected costs for the retirement systems are as follows:

	<u>ERS</u>
2008	\$ 70,877
2009	56,010
2010	61,329
2011	82,003
2012	109,035
2013	88,328
2014 (Budgeted)	145,059

Historically there has been a State mandate requiring full (100%) funding of the annual actuarially required local governmental contribution out of current budgetary appropriations. With the strong performance of the Retirement System in the 1990s, the locally required annual contribution declined to zero. However, with the subsequent decline in the equity markets, the pension system became underfunded. As a result, required contributions increased substantially to 15% to 20% of payroll for the employees' and the police and fire retirement systems, respectively. Wide swings in the contribution rate resulted in budgetary planning problems for many participating local governments.

On September 10, 2010, Comptroller Thomas P. DiNapoli announced increases over the previous year in the 2011-2012 employer contribution rates for the New York State Common retirement Fund (the "Fund"). The average contribution rate for ERS increased from 11.9% of salaries to 16.3% of salaries. On August 24, 2011, the Comptroller announced that for fiscal year 2012-2013, the average employer contribution rate for the ERS will increase from 16.3% of salaries to 18.9%. On August 31, 2012, the Comptroller announced that for the fiscal year 2013-2014, the average contribution rate for the ERS will increase from 18.9% to 20.9%.

Chapter 57 of the Laws of 2010 (Part TT) amended the Retirement and Social Security Law to authorize participating local government employers, if they so elect, to amortize an eligible portion of their annual required contributions to both ERS and PFRS, when employer contribution rates rise above certain levels. The option to amortize the eligible portion began with the annual contribution due February 1, 2011. The amortizable portion of an annual required contribution is based on a "graded" rate by the State Comptroller in accordance with formulas provided in Chapter 57. Amortized contributions are to be paid in equal annual installments over a ten-year period, but may be prepaid at any time. Interest is to be charged on the unpaid amortized portion at a rate to be determined by State Comptroller, which approximates a market rate of return on taxable fixed rate securities of a comparable duration issued by comparable issuers. The interest rate is established annually for that year's amortized amount and then applies to the entire ten years of the amortization cycle of that amount. When in any fiscal year, the participating employer's graded payment eliminates all balances owed on prior amortized amounts, any remaining graded payments are to be paid into an employer contribution reserve fund established by the State Comptroller for the employer, to the extent that amortizing employer has no currently unpaid prior amortized amounts, for future such use.

The investment of monies and assumptions underlying same, of the Retirement Systems covering the Town's employees is not subject to the direction of the Town. Thus, it is not possible to predict, control or prepare for future unfunded accrued actuarial liabilities of the Retirement Systems ("UAALs"). The UAAL is the difference between total actuarially accrued liabilities and actuarially calculated assets available for the payment of such benefits. The UAAL is based on assumptions as to retirement age, mortality, projected salary increases attributed to inflation, across-the-board raises and merit raises, increases in retirement benefits, cost-of-living adjustments, valuation of current assets, investment return and other matters. Such UAALs could be substantial in the future, requiring significantly increased contributions from the Town which could affect other budgetary matters. Concerned investors should contact the Retirement Systems administrative staff for further information on the latest actuarial valuations of the Retirement Systems.

Earlier this year, a pension smoothing option was introduced in the State Legislature that would let municipalities and school districts amortize over seven years some of the upcoming pension cost spikes precipitated by the 2008 financial crash and high pension costs in general for employees across the State. The pension smoothing option, which was approved as part of the State's 2013-14 budget, authorizes municipalities and school districts to contribute 14.13% of employee costs toward pensions next year, rather than the 16.25% currently required, which is up from the current rate of 11.8%. The District does not currently plan to pursue this option.

While the Town is aware of the potential negative impact on its budget and will take the appropriate steps to budget accordingly for the increase, there can be no assurance that its financial position will not be negatively impacted.

Other Post-Employment Benefits

It should also be noted that the Town provides post-retirement healthcare benefits to various categories of former employees. These costs may be expected to rise substantially in the future. There is now an accounting rule that will require governmental entities, such as the Town, to account for post-retirement healthcare benefits as it accounts for vested pension benefits. GASB Statement No. 45 ("GASB 45") of the Governmental Accounting Standards Board ("GASB"), described below, requires such accounting. GASB 45 implementation is now required for all municipalities.

GASB 45 and OPEB. OPEB refers to "other post-employment benefits," meaning other than pension benefits, disability benefits and consists primarily of health care benefits, and may include other benefits such as disability benefits and life insurance. These benefits had generally been administered on a pay-as-you-go basis and had not been reported as a liability on governmental financial statements.

GASB 45 requires municipalities and school districts to account for OPEB liabilities similar to pension liabilities, generally adopting the actuarial methodologies used for pensions, with adjustments for the different characteristics of OPEB and the fact that most municipalities and school districts have not set aside the necessary funds against this liability. Unlike GASB 27, which covers accounting for pensions, GASB 45 does not require municipalities or school districts to report a net OPEB obligation at the start.

Under GASB 45, based on actuarial valuation, an annual required contribution ("ARC") is determined for each municipality or school district. The ARC is the sum of (a) the normal cost for the year (the present value of future benefits being earned by current employees) plus (b) amortization of the unfunded accrued liability (benefits already earned by current and former employees but not yet provided for), using an amortization period of not more than 30 years. If a municipality or school district contributes an amount less than the ARC, a net OPEB obligation will result, which is required to be recorded as a liability on its financial statements.

GASB 45 does not require that the unfunded liability actually be amortized nor that it be advance funded, only that the municipality or school district account for its unfunded accrued liability and compliance in meeting its ARC.

The Town currently does not have any OPEB liability.

Unemployment Rate Statistics

Unemployment statistics are not available for the Town as such. The smallest area for which such statistics are available (which includes the Town) is the County. The information set forth below with respect to the County is included for informational purposes only. It should not be implied from the inclusion of such data in this Continuing Disclosure Statement that the County is necessarily representative of the Town, or vice versa.

	<u>Annual Average</u>

Financial Statements

The financial affairs of the Town are subject to periodic audit by the State Comptroller. The last available annual financial statement of the Town was performed covering the year ending December 31, 2013. Certain financial information of the Town is included in the Appendices to this Continuing Disclosure Statement.

The Town complies with the Uniform System of Accounts as prescribed for towns in New York State by the State Comptroller. This System differs from generally accepted accounting principles as prescribed by the American Institute of Certified Public Accountants' Industry Audit Guide, "Audits of State and Local Governmental Units", and codified in Government Accounting, Auditing and Financial Reporting (GAAPFR), published by the Governmental Accounting Standards Board (GASB).

Fiscal Stress Monitoring System

The New York State Comptroller has reported that New York State's school districts and municipalities are facing significant fiscal challenges. As a result, the Office of the State Comptroller has developed a Fiscal Stress Monitoring System ("FSMS") to provide independent, objectively measured and quantifiable information to school district and municipal officials, taxpayers and policy makers regarding the various levels of fiscal stress under which the State's school districts and municipalities are operating.

The fiscal stress scores are based on financial information submitted as part of each school district's ST-3 report filed with the State Education Department annually, and each municipality's annual report filed with the State Comptroller. Using financial indicators that include year-end fund balance, cash position and patterns of operating deficits, the system creates an overall fiscal stress score which classifies whether a school district or municipality is in "significant fiscal stress", in "moderate fiscal stress," as "susceptible to fiscal stress" or "no designation". Entities that do not accumulate the number of points that would place them in a stress category will receive a financial score but will be classified in a category of "no designation." This classification should not be interpreted to imply that the entity is completely free of fiscal stress conditions. Rather, the entity's financial information, when objectively scored according to the FSMS criteria, did not generate sufficient points to place them in one of the three established stress categories.

The most current applicable report of the State Comptroller designates the Town as "No Designation."

Part-Town	1.65	1.65	1.81	1.81	1.99

Tax Collection Procedure

Taxes are due January 1, payable without penalty to and including January 31. Penalties thereafter are 1% if paid in February and 2% if paid in March. On April 1, the tax roll is returned to the Rensselaer County Treasurer and taxes plus penalties are payable to the County. The Town retains the total amount of town, highway and special district levies from the total collections and returns the balance plus the uncollected items to the County, which assumes collection responsibility and holds annual tax sales. The Town thus is assured of receiving the full amount of its real estate tax levy each year.

Tax Collection Record

Years Ending December 31:	2010	2011	2012	2013	2014

Ten Largest Taxpayers 2013-14 Assessment Roll

<u>Name</u>	<u>Type</u>	<u>Assessed Valuation</u>
Erie Blvd. Hydro	Hydroelectric Plant	\$ 1,927,000
City of Troy	Municipal Water Supply	1,387,550
100 New Turnpike Rd, LLC	Nursing Home	1,320,000
Erie Blvd Hydro	Utility	1,073,000
NYSEG	Utility	1,121,920
D/R RV Resort	Campground	1,106,400
MCI	Utility	835,700
Niagara Mohawk Power Corporation	Utility	809,567
National Grid	Utility	672,094
Schaghticoke Partners of Albany LP	Shopping Mall	474,000

The ten largest taxpayers listed above have a total assessed valuation of \$10,727,231 which represents 7.0% of the Town's tax base.

Source: Town Tax Rolls.

Additional Tax Information

Real property in the Town is assessed by the Town.

Veterans' and Senior Citizens' exemptions are offered to those who qualify.

The assessment roll of the Town is constituted approximately as follows: 90% Residential, 5% Commercial and 5% Agricultural.

The total property tax bill of a \$100,000 residential property located in the Town is approximately \$2,491 including County, City, Town, Village and School District taxes.

Tax Levy Limitation Law

Prior to the enactment of Chapter 97 of the Laws of 2011 (the "Tax Levy Limitation Law") on June 24, 2011, all the taxable real property within the Town had been subject to the levy of ad valorem taxes to pay the bonds and notes of the Town and interest thereon without limitation as to rate or amount. However, the Tax Levy Limitation Law imposes a tax levy limitation upon the Town for any fiscal year commencing after January 1, 2012, continuing through June 15, 2016 or later as provided in the Tax Levy Limitation Law, without providing an exclusion for debt service on obligations issued by the Town. As a result, the power of the Town to levy real estate taxes on all the taxable real property within the Town, without limitation as to rate or amount, may or may not be subject to statutory limitations, according to the formulas set forth in the Tax Levy Limitation Law. The actual effect of the Tax Levy Limitation Law would depend upon the interpretation of such law by a court of competent jurisdiction in the event of a legal challenge.

The following is a brief summary of certain relevant provisions of Tax Levy Limitation Law. The summary is not complete and the full text of the Tax Levy Limitation Law should be read in order to understand the details and implications thereof.

The Tax Levy Limitation Law imposes a limitation on increases in the real property tax levy of the Town, subject to certain exceptions. The Tax Levy Limitation Law permits the Town to increase its overall real property tax levy over the tax levy of the prior year by no more than the "Allowable Levy Growth Factor", which is the lesser of one and two-one hundredths or the sum of one plus the Inflation Factor; provided, however that in no case shall the levy growth factor be less than one. The "Inflation Factor" is the quotient of: (i) the average of the National Consumer Price Indexes determined by the United States Department of Labor for the twelve-month period ending six months prior to the start of the coming fiscal year minus the average of the National Consumer Price Indexes determined by the United States Department of Labor for the twelve-month period ending six months prior to the start of the prior fiscal year, divided by: (ii) the average of the National Consumer Price Indexes determined by the United States Department of Labor for the twelve-month period ending six months prior to the start of the prior fiscal year, with the result expressed as a decimal to four places. The Town is required to calculate its tax levy limit for the upcoming year in accordance with the provision above and provide all relevant information to the New York State Comptroller prior to adopting its budget. The Tax Levy Limitation Law sets forth certain exclusions to the real property tax levy limitation of the Town, including exclusions for certain portions of the expenditures for retirement system contributions and tort judgments payable by the Town. The Town Board may adopt a budget that exceeds the tax levy limit for the coming fiscal year, only if the governing board of the Town first enacts, by a vote of at least sixty percent of the total voting power of the Town Board, a local law to override such limit for such coming fiscal year.

The Tax Levy Limitation Law does not contain an exception from the levy limitation for the payment of debt service on either outstanding general obligation bonds or notes of the Town or such indebtedness incurred after the effective date of the Tax Levy Limitation Law. As such, there can be no assurances that the Tax Levy Limitation Law will not come under legal challenge for violating (i) Article VIII, Section 12 of the State Constitution for not providing an exception for debt service on obligations issued prior to the enactment of the Tax Levy Limitation Law, (ii) Article VIII, Section 10 of the State Constitution by effectively eliminating the exception for debt service to general real estate tax limitations, and (iii) Article VIII, Section 2 of the State Constitution by limiting the resources supporting the pledge of full faith and credit by a municipality or school district for the payment of debt service on obligations issued by such municipality or school district.

Real Property Tax Rebate. Chapter 59 of the Laws of 2014 ("Chapter 59"), a newly adopted State budget bill includes provisions which provide a refundable personal income tax credit to real property taxpayers in school districts and certain municipal units of government. Real property owners in school districts are eligible for this credit in the 2014 and 2015 taxable years of those property owners. Real property taxpayers in certain other municipal units of government are eligible for this credit in the 2015 and 2016 taxable years of those real property taxpayers. The eligibility of real property taxpayers for the tax credit in each year depends on such jurisdiction's compliance with the provisions of the Tax Levy Limitation Law. School districts budgets must comply in their 2014-2015 and 2015-2016 fiscal years. Other municipal units of government must have their budgets in compliance for their 2015 and 2016 fiscal years. Such budgets must be within the tax cap limits set by the Tax Levy Limitation Law for the real property taxpayers to be eligible for this personal income tax credit. The affected jurisdictions include counties, cities (other than any city with a population of one million or more and its counties), towns, villages, school districts (other than the dependent school districts of New York City, Buffalo, Rochester, Syracuse and Yonkers, the latter four of which are indirectly affected by applicability to their respective city) and independent special districts.

Certain additional restrictions on the amount of the personal income tax credit are set forth in Chapter 59 in order for the tax cap to qualify as one which will provide the tax credit benefit to such real property taxpayers. The refundable personal income tax credit amount is increased in the second year if compliance occurs in both taxable years.

For the second taxable year of the program, the refundable personal income tax credit for real property taxpayers is additionally contingent upon adoption by the school district or municipal unit of a state approved "government efficiency plan" which demonstrates "three year savings and efficiencies of at least one per cent per year from shared services, cooperation agreements and/or mergers or efficiencies".

Municipalities, school districts and independent special districts must provide certification of compliance with the requirements of the new provisions to certain state officials in order to render their real property taxpayers eligible for the personal income tax credit.

While the provisions of Chapter 59 do not directly further restrict the taxing power of the affected municipalities, school districts and special districts, they do provide an incentive for such tax levies to remain within the tax cap limits established by the Tax Levy Limitation Law. The implications of this for future tax levies and for operations and services of the Town are uncertain at this time.

STATUS OF INDEBTEDNESS

Debt Outstanding End of Fiscal Year

<u>Years Ending December 31:</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>	<u>2012</u>	<u>2013</u>

Totals	\$ 5,898,700	\$ 5,545,750	\$ 5,196,972	\$ 4,926,472	\$ 4,547,165

Details of Outstanding Indebtedness

The following table sets forth the indebtedness of the Town evidenced by bonds and notes as of December 31, 2013.

	<u>Maturity</u>	<u>Amount</u>
<u>Bonds</u>	2014-2033	\$ 4,433,830
<u>Bond Anticipation Notes</u>		
Truck Purchase	May 25, 2014	51,320
New Mower	2016	62,015
	Total Indebtedness	<u>\$ 4,547,165</u>

Debt Statement Summary

Statement of Indebtedness, Debt Limit and Net Debt-Contracting Margin as of December 31, 2013:

Five-Year Average Full Valuation of Taxable Real Property	\$ 623,978,000
Debt Limit - 7% thereof	43,678,460

Inclusions:

Bonds.....	\$ 4,433,830	
Bond Anticipation Notes	<u>113,335</u>	
Total Inclusions		\$ 4,547,165

Exclusions

Water Indebtedness ⁽¹⁾	\$ 1,011,785	
Appropriations.....	<u>0</u>	
Total Exclusions		\$ <u>1,011,785</u>

Total Net Indebtedness Subject to Debt Limit	\$ <u>3,535,380</u>
Net Debt-Contracting Margin	\$ <u>40,143,080</u>
Percent of Debt Contracting Power Exhausted	8.09%

⁽¹⁾ Water Debt is excluded pursuant to Article VIII, Section 5B of the New York State Constitution.

Cash Flow Borrowings

The Town has not found it necessary to borrow tax anticipation notes or revenue anticipation notes in the past and does not anticipate the need to borrow either in the future.

Capital Project Plans

There are currently no other capital projects authorized nor are any contemplated at the present time.

Estimated Overlapping Indebtedness

In addition to the Town, the following political subdivisions have the power to issue bonds and to levy taxes or cause taxes to be levied on taxable real property in the Town. The estimated outstanding indebtedness of such political subdivisions is as follows:

	<u>Outstanding Indebtedness</u>	<u>Exclusions</u> ⁽²⁾	<u>Net Indebtedness</u>	<u>Approx. % Within Town</u>	<u>Applicable Net Indebtedness</u>
County of:					
Rensselaer	\$ 189,200,043	\$ 59,295,297 ⁽³⁾	\$ 129,904,746	5.86%	\$ 7,612,418
School Districts of:					
Hoosic Valley	16,949,350	13,728,974 ⁽⁴⁾	3,220,376	54.99	1,770,885

Debt Ratios

The following table sets forth certain ratios relating to the Town's indebtedness as of December 31, 2013:

Amount	Per Capita ^(a)	Percentage of Full Value ^(b)
Net Indebtedness (see "Debt Statement Summary").....	\$ 3,535,380	0.56%
Net Indebtedness Plus Net Overlapping Indebtedness ^(c)	14,228,156	2.27
	\$ 460.40	
	1,852.87	

(a) The Town's 2010 estimated population is 7,679. (See "Population Trends" herein.)
 (b) The Town's full value of taxable real estate for 2014 is \$626,008,463.
 (c) See "Debt Statement Summary" herein.

(d) The Town's applicable share of net underlying indebtedness is \$10,692,776. (See "Overlapping Indebtedness" herein.)

RATING

Moody's Investors Service, Inc. has assigned their municipal bond rating of "Aa3" to the Towns outstanding Bonds. Such rating reflects only the view of such organization and any desired explanation of the significance of such rating should be obtained from the rating agency furnishing the same. There can be no assurance that such rating will continue for any specified period of time or that such rating will not be revised downward or withdrawn by the rating agency furnishing the same if, in its judgment, circumstances so warrant.

LITIGATION

The Town is subject to a number of lawsuits in the ordinary conduct of its affairs. The Town does not believe, however, that such suits, individually or in the aggregate, are likely to have a material adverse effect on the financial condition of the Town.
